**COVER:** Dimensional Flagstone, Kodah, Claremont, and Outcropping shown in Fond Du Lac. Project by Sonco Pools & Spas, Inc., Loves Park, Illinois.

**LEFT:** Outcropping shown in Fond Du Lac
Look at your backyard. Now imagine what it could be. At Rosetta Hardscapes we take what nature gives and fashion it into something beautiful, usable and lasting. That means that all of our products are cast in molds made from real weathered stone, with materials of the finest quality, to capture every detail. By their very nature, Rosetta pavers, retaining walls and accessories harness all of the beauty that your home’s surroundings have to offer. So that at the end of your project you’ll realize that what you see was there all along—it’s nature at its finest, in a landscape that you didn’t know could look so beautiful.
Not all landscaping materials are created equal. The wet cast forming process results in a smooth, defined surface for a stylish finish. This means that wet cast products can mimic natural stone with remarkable accuracy compared to the often dull look of dry cast.
What would it be like to love your backyard? Imagine looking out your kitchen window in the morning with nothing between you and fresh sunlight except the time that it takes to brew a cup of coffee. Open the door, settle in, and take the first sip outside.
Why should we have to live in a world where everything needs replacing? Rosetta’s wet cast materials are less porous than dry cast, significantly increasing their ability to tough it out in harsh weather.
Attractive texture, color, and shape

Simple lifting tool increases installation speed and safety

Interlocking heels make walls easy to engineer

Consistent dimensions make installation fast and easy

**THE EASY CHOICE**

Our products are engineered for ease of installation and maximum durability. We do our best to ensure that your contractor smiles every time they get to work with Rosetta. Because when your contractor loves their work, it saves you time and money.
The night isn’t going anywhere – why should you? Like a summer evening, these patios were made for lingering.

Context matters for any type of great art. Your home is a masterpiece. Use Rosetta to craft its perfect frame.
A beautiful space without a wall is like a picture without a frame. Wonderful, but incomplete. And since a good frame always flatters its subject, choose a wall that stands out as much as your impressive style.
Whether you’re entertaining grandkids or grown kids, find a way to delight every sense. Sometimes the best hospitality is as simple as a crackling flame.

Sometimes a wall is the best way to bring your backyard to life. And if a wall is the way to enjoy your living space, shouldn’t it be lovely? When we design a wall block at Rosetta, we pay special attention to the detail of every mold and cast. All of our walls capture the distinct essence of the natural stone that they’re modeled after. These walls will be the showcase of your whole project and yet seem so right in your home’s environment, you’ll get the feeling that it was meant to be there all along.

**MORE THAN A PRETTY FACE**
Color is integrated into every grain of every richly textured block, so that it looks natural and won’t wear out.

**THEY’RE SMART TOO**
Blocks are engineered with consistent dimensions so that your project is as perfect as you’ve pictured.

**RETAINING, GARDEN & SEAT WALLS**

Sometimes a wall is the best way to bring your backyard to life. And if a wall is the way to enjoy your living space, shouldn’t it be lovely? There is a giant difference between Outcropping and your average landscaping wall. The massive size of the Outcropping system makes it visually striking and easy to install, so that your stunning landscape can be finished without frustration.

- Pieces are an eye-catching 2 to 6 feet in length, and 6 to 24 inches in height
- 12 different pieces come together randomly to look like a real stone wall
- Installation guides offer your contractor hassle-free installation for a trouble-free project

The Outcropping Collection is made up of 12 different shapes and 24 textures

Inspired by the rolling hills of the English countryside, the Belvedere wall collection replicates quarried stone with more charm than any other man made product you have ever seen. The only hitch with Belvedere may be that while enjoying your garden landscape, you won’t be able to tell whether you’re in the suburbs or the Shire.

- 64 unique stone textures look just like well crafted natural stone
- Great for seat walls, pillars, or structural retaining walls
- Consistent dimensions and pre-developed patterns ensure a headache free project
- Coordinating Belvedere Coping and 27” Column Caps available

**COLOR OPTIONS**

- AUBURN RIDGE
- FOND DU LAC
- SLATE GRAY
- WALNUT (Special Order)

**BELVEDERE COLLECTION**

LENGTH: 6-18 inches

KODAH WALL

KODAH
Shown in Fond Du Lac
We wouldn’t be surprised if your first look at a Kodah retaining wall makes you want to do a double take. Go ahead and check it out — the large dimensions and subtle character of these walls beg for attention.

- 4 large, multi-textured unit sizes and corner blocks imitate snapped limestone
- Modern character gracefully compliments plants and flowers
- Consistent block heights make installation a snap, for faster project completion

These are your living spaces. And whether you’re lounging, laughing, or hurrying from here to there, you have your own style. Rosetta Hardscapes offers a diverse variety of paver styles to suit any taste, from the rugged shapes of flagstone slabs to the modern dimensions of pre-cut stone. Whether you hope for a traditional garden or a contemporary patio, Rosetta has your drive or walkway covered. And since we know you’re going to walk all over it, we ensure that our products are durable enough that they won’t be worn out by the beauty of your everyday life.

CHARACTER FOR YOUR LANDSCAPE
The impressive textures of Rosetta pavers add dimension to your project’s overall design.

TREAD ON SOLID GROUND
Rosetta uses top quality materials and processes for hardscapes that last.

Gray Border—Shown Sealed
MISSION PAVERS

Wouldn’t you rather drive your car onto a cobblestone courtyard in old world Europe than a concrete slab? The Mission Paver collection will transform any drab backyard or driveway into an Italian veranda. For patio use we recommend pairing these pavers with a bottle of your favorite Merlot.

OLD MISSION

- Wider joint for permeable applications

NEW! NEW MISSION

- Textures and colors of New Mission exude elegance.
- Pavers can be placed together tightly, for a smooth, even surface with an extra touch of class.

COLOR OPTIONS

- AUBURN RIDGE

- WALNUT (Special Order)
GRAND FLAGSTONE &
ROUND FIRE PIT KIT
Shown in Fond du Lac
Nature rarely needs anything added to it except a way to enjoy it. Take in the scenery with Grand Flagstone under your patio chairs. And rest easy, because unlike natural stones, these pavers are as durable as they are timeless.

- 15 rough hewn shapes and multi toned colors perfectly replicate real flagstone
- Smooth top surfaces help protect feet from tripping
- Even product height reduces breakage for a beautiful patio or walkway, year after year

GRAND FLAGSTONE

COLOR OPTIONS

- AUBURN RIDGE
- FOND DU LAC
- SLATE GRAY
- WALNUT (Special Order)
DIMENSIONAL FLAGSTONE
Shown in Auburn Ridge
The attractive, multi-toned colors of dimensional flagstone will brilliantly highlight your home’s design. Use for your family’s patio or your front walkway.

- Tones and colors meld gracefully into surrounding outdoor environment
- Large unit sizes for tasteful design, without appearing busy
- Patterned installation aids in fast, frustration-free project completion

- BLUESTONE
- SLATE GRAY (Special Order)
- WALNUT (Special Order)
Chic, hip, stylish. All words that will be used to describe your modern Miros patio. This very large slab lies tastefully beneath colorful patio furniture or vibrant plants and flowers.

- At 3 1/2 x 3 1/2 feet, Miros is the largest hardscape slab you can find
- Square shape and crisp edges contrast with plants or flowers for a striking, modern vibe
- Moss or stone fits between spaced pavers for an especially attractive, low maintenance patio
- Ask your contractor about fast, mechanical installation
Superior Steppers are a delightful way to adorn your backyard. Lay a charming garden walkway with stones made of the highest quality materials, for a path that won’t break or chip.

- 8 different shapes for a rustic, authentic stone appearance
- Various color offerings compliment your existing backyard environment.

Superior Steppers are 27” x 21” wide, with a consistent 2” rise.

COLOR OPTIONS

- AUBURN RIDGE
- FOND DU LAC
- SLATE GRAY
- WALNUT (Special Order)

*Due to their design, dimensions vary slightly by paver.*

Every element of your landscape should add to its charm. That’s why we didn’t take any shortcuts in creating the Rosetta step collection and coping accessories. Whether your plans include a finished pool deck or a cap for a column, we have the element that will suit your Rosetta design perfectly. So that every color, texture and detail of your project works together with the most style possible.
IRREGULAR STEPS, DIMENSIONAL STEPS, OUTCROPPING, & DIMENSIONAL FLAGSTONE
Shown in Fond du Lac
Welcome friends and family to your patio or porch with Rosetta’s Irregular Step collection. These lovely steps sweeten your home’s surroundings with subtle and natural color and texture.

- Stone-like shapes and textures create inviting walkways
- Simple installation process for fast project completion
- Consistent 5 1/2 inch or 7 inch rise is safe for even childish foot traffic

Irregular steps are available in standard or large sizes. Standard-sized steps must be purchased by packages of 6 and large steps must be ordered individually.

*All dimensions are nominal.
Rosetta Dimensional Steps make sense for any design. Each chiseled edge mimics well cut, real stone.

- Available lengths include 3, 4 and 6 feet and widths of 18, 24 and 30 inches to suit a variety of design needs.
- All steps are available in a variety of colors to coordinate with other Rosetta hardscape elements.
- The consistent 7-inch rise gives your landscape the perfect lift.

All Dimensional Steps have 7" rise
Steps packaged by size:

- 36" x 18" x 7"
  - 375 lbs/ea

- 48" x 18" x 7"
  - 500 lbs/ea

- 48" x 24" x 7"
  - 675 lbs/ea

- 72" x 30" x 7"
  - 1333 lbs/ea

**COLOR OPTIONS**

- Slate Gray
- Superior Buff
- Walnut (Special Order)
34" COLUMN CAP & DIMENSIONAL COPING
Shown in Sand

CLAREMONT
Shown in Fond du Lac
Rosetta Bullnose Coping is made of professional quality materials and makes great step treads, pool edges or retaining wall caps.

- Rounded edge allows for visually pleasing design contrast
- 14” depth is perfect for step treads
- Corner units available to put the finishing touches on your project

A useable seat wall in your garden is as simple as adding a coping layer. The chiseled features of Dimensional Coping are the perfect match for any Rosetta wall.

- Textured top and edge surfaces integrate into any patio or garden setting
- Coping sets come packaged with 18 and 24 inch pieces
- Finished ends available for simple project completion

**BULLNOSE COPING**

**DIMENSIONAL COPING**
Your landscape finale, our column caps are no after thought. These caps are as beautifully crafted as the walls that they finish.

- Square Column Caps come in lengths of 24, 27, 30, and 34 inches
- Colors coordinate with the rest of the Rosetta product line for a cohesive design
Our unique casting process creates landscape stones that are unparalleled in their authenticity.

The story of the Manthei family business begins in 1930, with Ted and Ernie, strawberry farmers in Northern Michigan. Risk and providence brought them first into the veneer industry, then construction, and finally craft concrete.

When Jim, Ben and Mark Manthei launched Rosetta Hardscapes in 2007, it was because they wanted to offer you something new. After years working in the construction industry they realized that homeowners and contractors lacked a landscape product option that was both easily installed and accurate in the way that it replicated natural stone. So they created just that.

The first product released by Rosetta Hardscapes was the Outcropping Collection. The groundbreaking retaining wall block system looked like large stacked limestone but stacked logically, so that installation could be twice as fast as its complicated natural stone counterpart. Outcropping is still the only pre-cast, residential scale wall block of its size and type. Welcomed warmly in our home of Northern Michigan, the Outcropping collection and others are now manufactured by partners all over the world.

We understand that you try to maintain an attractive and inviting home, and that the materials used to embellish your landscape are an important part of that endeavor. We also know that excellent landscape contractors appreciate detail and quality. For you, we will continue to strive to make the best looking landscape materials possible. And for your contractors we will provide easily installed supplies and whatever tools we can, for any project of any scale. In short, we will try to learn, improve and grow so that your contractor can love their work, and you better enjoy your home.

This budding company formed within a family business with over six decades of experience. Rosetta is still family owned and operated, and part of an active community of businesses managed by various members of the Manthei family. By listening, learning and clear communication, we hope to grow, serve and enjoy what we do.
COLOR:
We at Rosetta Hardscapes, along with our media partners, do our best to produce print and digital materials that accurately reflect the true shades and tones of our product. However, we cannot guarantee perfect color matching for project photos, color swatches, or other picture representations. Because dye is mixed into the raw materials for all Rosetta Hardscapes products, shades and color variations will occur throughout each block or paver. Therefore no product seen in a photograph will be precisely duplicated. We recommend installing Rosetta with materials picked from multiple pallets for optimum color blend.

Rosetta works with manufacturers around the world to provide each geographic market with products suited to its native landscape. Therefore, colors vary by region and the colors available in your area may not be represented in this catalog. You can find out who your local producer is on our website by clicking “Where to Buy” at www.discoverrosetta.com.

EFFLORESCENCE:
Efflorescence is a naturally occurring, chalky, white residue commonly found on concrete surfaces. Unfortunately, this unavoidable chemical process occurs in all concrete products including Rosetta Hardscapes. The presence of efflorescence in no way degrades the integrity of any product. It can usually be removed with efflorescence cleaners and often washes away over time. Rosetta Hardscapes does not cover the presence of efflorescence under warranty.

POLYMERIC HAZE:
Improper installation of hardscape materials or use of certain landscaping sands may result in the presence of polymeric haze. This discoloration can potentially mute the vibrant colors of concrete products. Its incidence is not indicative of the quality of the product and it should not be considered a source of concern for the product durability. Because Rosetta Hardscapes cannot regulate selection or installation of aftermarket accessory materials, we do not warranty the presence of polymeric haze. In general, polymeric haze can be cleaned and washes away over time.

HEAVY EQUIPMENT:
The broad surface dimensions of Rosetta’s slab products exclude them from use for vehicular traffic and compaction equipment. The exception to this exclusion is the more traditionally dimensioned Mission paver collection. Both Old and New Mission can be used as driveway pavers and/or finish-compacted. If a compactor is used to aid in installation of Old or New Mission, a urethane pad should be used with the compactor to protect the detailed surfaces of the pavers from damage.

WINTER CARE:
All metal snow shovels and snow blower blades have the potential to damage concrete pavers. All snowplows, snow blowers and shovels used to clear Rosetta products of snow should use plastic blades or guards. De-icing salts will damage concrete hardscapes and should not be used with Rosetta products. Rosetta does not cover damage done by snow removal, de-icing or improper loading under warranty.
Rosetta hardscape products as manufactured by Rosetta of Michigan are backed by a lifetime warranty from the manufacturer to the original end user, for products used in residential applications. This assurance of product quality is applicable where products have been correctly installed to manufacturer’s specifications. Any properly installed hardscape material manufactured by Rosetta of Michigan that deteriorates due to the concrete in the product not meeting the design strength specification will be replaced by the manufacturer. The following items are not covered by this warranty: color variances and the appearance of surface stains resulting from chemical reactions such as efflorescence or differential curing; damage caused by installation; deterioration caused by de-icing salts or fertilizers; damage resulting from sub-grade settlement or movement; hairline cracks that do not effect the structural performance of the product; spalling of less than three percent of the surface area; contact with chemicals or paint; discoloration due to airborne contamination, staining, oxidation, or improper sealing. Products purchased must be registered with the manufacturer within 60 days of end user’s purchase for warranty to be valid.

All warranty claims must be made prior to the removal or disposal of the defective product. Warranty claims will be reviewed by a company representative and may require samples of defective product for analysis. Warranty does not include removal, installation or transportation to replace the material. Warranty is not transferable and is extended to the original end user only. Proof of purchase is required.

Please note:
• Actual colors may vary from the color swatches shown in this book. Final color selection should be made from actual color samples, which are available from your local dealer.
• For the most natural appearance, install products from multiple pallets simultaneously. This will create a more blended, natural look.
